

# PSM Internship Opportunity

## Geotechnical Engineering

### About PSM

PSM is an engineering and geological consulting company that provides geotechnical specialised design and investigation services. We specialise in tunnelling, mining, civil, dams, water projects and geohazard studies with offices in Sydney, Brisbane, Perth and Geelong.

Our aim is to provide practical, innovative, best for project solutions for our clients in a collaborative and flexible environment. Our commitment to mentoring the next generation of experts sets us apart.

At PSM we understand the benefit of diversity in our firm. Our long history of success has come from thinking differently. We value the innovation and creativity that diversity of thought brings. The one thing we all have in common is our focus on high performance.

### About the candidate

PSM are looking for individuals who are currently enrolled in a relevant Bachelors or Masters degree in Civil or Mining Engineering, majoring in Geotechnical Engineering, preferably with outstanding marks. Those individuals will also be passionate about geotechnical engineering, are capable, adventurous, motivated, and able to deliver.

### About the opportunity

This six to eight-week paid summer internship offers the opportunity to gain first hand experience of what a career in geotechnical engineering would look like. Interns will take part in a range of projects from small jobs to some of the largest infrastructure and mining projects in the world.

This internship experience offers the chance to gain valuable skills and practical experience to assist you in transition into a professional career. It also provides a unique opportunity to be mentored by some of the world's leading technical experts in engineering geology and geotechnical engineering.

Interns may receive the chance to continue their internship on a part-time basis and/or be considered for a graduate position.

### To apply

If you're capable, adventurous, motivated and can deliver we want you on our team.

To apply please complete an application form by visiting our **Careers Page** or scanning the QR code.

**Applications close 31 October 2024**
